here with waste bag
support accessory

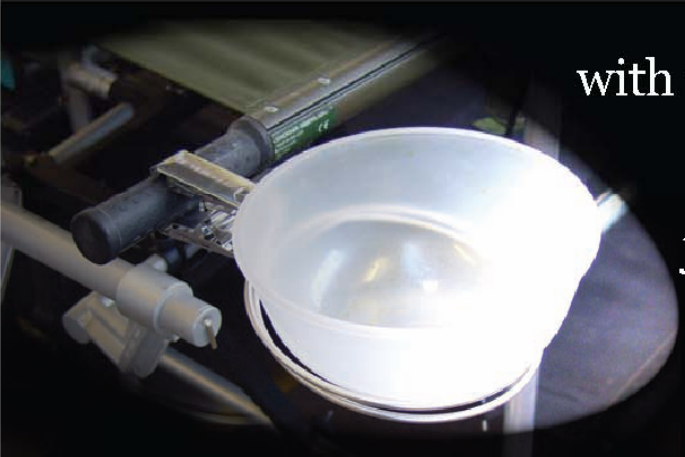

pointflame services limited,
web: www.collieclip.com

the airway management accessory keeps the mask in place and the airway out of harm's way

with this accessory the clip will support a clinical waste bag or a bowl just where you need it when you need it

the IV bag holder accessory can double up as a support for a catheter or chest drainage bag on the foot of the litter

the **collie clip** takes a sharps bin in the rear jaws so that the bin is secure and close to hand
